DETAILED ACTION

Election/Restrictions

1. Newly submitted claims 35-38 directed to an invention that is independent or distinct from the invention originally claimed for the following reasons:

Applicant elects the device claims, i.e., Group I claims, without traverse in the response filed on June 2, 2003. In addition, the invention that was not related to the elected invention has been withdrawn and cancelled. However, the newly added claims i.e., claims 35-38, are belong to the non-elected invention as set forth ^{forth}~~forth~~ in the response May 16, 2003 restriction.

Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, claims 35-38 are withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.

Double Patenting

2. The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

1. Claims 28-34 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1-6 of U.S. Patent No. 6,184,465. Although

Art Unit: 2823

the conflicting claims are not identical, they are not patentably distinct from each other because the following reasons:

Re claims 28-34, the scope of the subject matter of the instant application already claims in the claims U.S. Patent No. 6,184,465. The claimed subject matter includes a semiconductor packages, comprising: a substrate having top (i.e., upper) and bottom (i.e., lower) surfaces, one of said upper and lower surfaces including a first plurality of grooves dividing said substrate into a plurality of segments; a plurality semiconductor dies, each semiconductor die being substantially aligned with a segment; and an encapsulant over said plurality of semiconductor dies, said encapsulant having a second plurality of grooves; wherein said second plurality of grooves is substantially aligned with said first plurality of grooves; wherein said first plurality of grooves are formed on said upper surface of said substrate; wherein said plurality of semiconductor dies are formed on said lower surface of said substrate. wherein said first plurality of grooves are formed on said lower surface of said substrate. wherein said plurality of semiconductor dies are formed on said upper surface of said; wherein each of said plurality of semiconductor dies is electrically connected to a respective segment of said substrate (see Claims 1-6 of U.S. Patent No. 6,184,465).

Therefore, are not patentably distinct from each other.

Response to Arguments

2. Applicant's arguments with respect to claims 28-34 have been considered but are moot in view of the new ground(s) of rejection that was necessitated by the amendment filed on January 4, 2005.

Conclusion

3. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
